

Here I am waiting to see if my life will be as  
I wish now I feel my dreams come alive  
Follow your dreams and you'll see  
In your loneliness you dream forever  
I see you flying away to the stars

Dream away from reality, far away  
You'll see the day when you will learn to believe  
The truth in reality

Now the time has come I'm ready to go  
Come with me if you wanna see  
In your loneliness you dream forever  
I see you flying away to the stars

Dream away from reality, far away  
You'll see the day when you will learn to believe the truth  
One day you'll find it  
Only when you face your reality
