

Standing before me a law of desire  
No one wants to die tonight  
This is our final solution to face, will help come?  
I have been told there's a shit on the way  
When they arrive all this will be gone  
Can you hear us when we're calling for help?

All the lifeboats are almost gone  
Only one left, run to the side  
See if there's somebody who understands

We go down, we pray for help  
But no one answers, fathers cry  
There's no more room on the boat  
Stand in line, you wait for true salvation  
To arrive to you  
When you feel all hope is gone  
We would sail for a world  
But caught in the middle of tragic events

Carry on, we'll always carry on  
Always 'til the end you know  
We always carry on  
Carry on my friend 'til the end  
When all life here seems to be damned  
Wish for angels love to be send  
But we carry on  
So we die but our spirit lives on  
Angels will see

Trapped in the middle and dragging us down  
The suction keeps us away from air  
Nobody listens when we scream for help  
We are all alone

All the lifeboats have gone away  
No one is left, run to the side  
See if there's someone who can help you now

Carry on, we'll always carry on  
Always 'til the end you know we always carry on  
Carry on my friend 'til the end  
When all life here seems to be damned  
Wish for angels love to be send, but we carry on  
So we die but our spirit lives on  
So we die but our spirit lives on
