

My journey is over now
I'm turning, I'm walking right home to you
Now I know just where I belong
Your spirit takes me higher and higher

Hold me closer tonight, we'll ride the sky
We'll have a journey tonight

Star shine guide my way to distant skies again
Heaven is right by my side
Starlight guide me tonight so I can be free
I will see you again

So tell me it's over now
My journey is over, I'm coming home
Far too long, I have been here
now I am coming home

Mysterious ways have passed
Now I'll be the guiding light

Star shine guide my way to distant skies again
Heaven is right by my side
Starlight guide me tonight so I can be free
I will see You again
