

# Through The Fire

ReinXeed

People running from left to right  
Trying to find a way to survive  
When the water draws near and  
All the lifeboats are almost gone

But sadly to say there's no way  
When they save all the people  
According to the class they live

All hope is gone and the  
Only thing left is to pray  
Pray for a closure that  
Their souls would be saved

Through the fire (fire burns)  
Water turns into graves  
Through the fire (fire burn)  
Their live will not  
Be the same in the night

Hear the band, they start to play  
To calm them down but why?  
Knowing that soon the ice-cold water  
Reaches your heart  
Then you feel it starts to burn  
No matter which way you turn  
Two hours or so then  
It lies on the bottom sea

Traveling in third class then  
Life boat's no option for you  
So many people gone, so many lost

Through the fire (fire burns)  
Water turns into graves  
Through the fire (fire burn)  
Memories will remain  
Through the fire (fire burn)  
Only way to survive is desire (fire burn)  
If only we would have known what to come

Help's on the way but  
Four hours is too long  
All would be gone lost at sea  
We honor you

Through the fire  
Through the fire
