

## We must go faster

ReinXeed

Biggest creation known to man  
A luxury on the sea  
And now it's time to set another sail  
We must go now, faster so we  
Can reach our goal  
Yet by another morning star  
More steam into the engine  
Hear now how we roar  
Another day will shine  
And faster we must go

I would give all I had  
For just one more day  
To show the world  
If you believe you can achieve  
I'll give up all I had  
If moments could stay  
But realize we must go faster

We must go faster  
Can you imagine what they would say  
If we arrived not as planned?  
Steam up the engine  
Put the level to the max  
Headlines waiting for us if we  
Can reach our goal  
Yet by another morning star  
More steam into the engine  
Hear now how we roar  
Another day will shine  
And faster that we go

Let's go  
Another day will shine  
And faster we will go  
Now
