

Talked to my sister late last night
She gave me some advice
And what she said was right

Talked to my sister late last night
Said I've got her on my mind
She said it's good I know my kind
And this time maybe she's just the one you need

Keep taking your time
You shouldn't go for her full speed
And maybe this time
Maybe she's just the one you need
'Cause I know that I've never seen
your motives more squeaky clean
And my 17 Magazine tells me that you're in love

Jessica told me
I should take a quiz
10 yes or no questions
To tell me what love really is

I searched through my answers
Lied and said I like 'N Sync
Said my middle name's Don Juan
And I'm sure of myself I think

Maybe this time
Maybe she's just the one you need
Keep taking your time
You shouldn't go for her full speed
And maybe this time
Maybe she's just the one you need
'Cause I know that I've never seen
Your motives more squeaky clean
And my 17 Magazine tells me that you're in love

Maybe this time
Maybe she's just the one you need
Keep taking your time
You shouldn't go for her full speed
Maybe this time
Maybe she's just the one you need
'Cause I say if you're asking me
Love is sacred, love is sweet
My 17 Magazine tells me you're in love

My 17 Magazine
My 17 Magazine
My 17 Magazine
Tells me that you're in love
