Disaster

Relient K

I've been spending all my time falling in love
Should know better but it's so much fun when I'm with you
Now there's a missing person poster hanging up at the bar
Cause I
I've got a girl
I think we're in love
But oh for how long
It's got disaster
Written all over
So don't nobody show her
Our horrorscope headline
Disaster
Written all over it

No you didn't
No no you didn't, did you
Pull out the wires
Make a man out of me
I'm trying to figure out
If life's worth living without you
Hope I never have to
The stars could align
Or explode in the sky
Disaster

Baby, you look so sexy
So what do I do when
We get home from church and the baby
Is in her room sleepin'
Or watchin' a movie
You get closer to me
Oh this has disaster written all over it
Yeah yeah yeah

I'm trying to figure out
If life's worth living without you
Hope I never have to
The stars could align
Or explode in the sky
If I already know about
Everything that could bring us down
But I react a bit faster
I'm averting disaster
One day at a time
Disaster
Disaster
Oh, disaster
Disaster
Did you pull out the wires
Make a man out of me

I'm trying to figure out
If life's worth living without you
Hope I never have to
It could be disaster
If I don't even try

If I already know about
Everything that could bring us down
But I react a bit faster
I'm averting disaster
One day at a time
Disaster
Disaster
Disaster
Disaster

If I already know about
Everything that could bring us down
But I react a bit faster
I'm averting disaster
One day at a time
Disaster
