

## Down in Flames

## Relient K

Christians-- we're all afraid of fire.  
We prefer to suck on pacifiers.  
Baby pacifists, we're throwing fits.  
We don't shake hands, we shake our fists.

We're cannibals.  
We watch our brothers fall.  
We eat our own, the bones and all.

Finally fell asleep on the plane  
to wake to see we're going down in flames.

We're going down, down, down in flames.  
We're gonna drown, drown, drown insane.

We see the problem and the risk,  
but nothing's solved.  
We just say, "Tisk, tisk, tisk,"  
and, "Shame, shame, shame."

Finally fell asleep on the plane  
to wake to see we're going down in flames.

Let 's go!

Christians-- we mourn, the thorn is stuck  
in the side of the body watch it self-destruct.  
The enemy is much ignored  
when we fight this Christian civil war.

We're cannibals.  
We watch our brothers fall.  
We eat our own, the bones and all.

Finally fell asleep on the plane  
to wake to see we're going down in flames.

We're going down, down, down in flames.  
We're gonna drown, drown, drown insane.

We see the problem and the risk,  
but nothing's solved.  
We just say, "Tisk, tisk, tisk,"  
and, "Shame, shame, shame."

Finally fell asleep on the plane  
to wake to see we're going down in flames.

Let me pause to clarify  
( 'cause I'm sure you're asking, "Why?" ).  
I stand before you and proudly claim  
to belong to what this song complains.

I'm part of the problem,  
I confess,  
But I gotta get this off my chest.

Let's extinguish the anguish  
for which we're to blame,  
and save the world  
from going down in flames.
