

Everything Will Be

Relient K

It smells so sweet outside today
The sun smiles down, I'm in the shade
I sit and think about all my friends and how good they are

But when today is yesterday
I know that things won't stay the same
But I know that the memories won't go too far

Round and round the world will turn
Lessons taught and lessons learned
Jesus gets us through the good and bad times
And lets me know that everything will be just fine

Everything will be just fine
Everything is gonna be fine
Everything will be just fine

A year's passed since I wrote this song
A lot's gone right, a lot's gone wrong
But I know that Jesus has been there right by my side

And I see the sun still shines
It shines outside and in my life
And I know that everything is gonna be just fine

Round and round the world will turn
Lessons taught and lessons learned
Jesus gets us through the good and bad times
And lets me know that everything will be just fine

Everything will be just fine
Everything is gonna be fine
Everything will be just fine

Round and round the world will turn
Lessons taught and lessons learned
Jesus gets us through the good and bad times
And lets me know that everything will be just fine

Everything will be just fine
Everything is gonna be fine
Everything will be just fine
Everything will be just fine
