

Better Than Life

Remedy Drive

Exhausted You sustained me
Was lost but You regained me
It cost so much you made me free

Was broken You repaired me
My hope was thin, You spared me
You spoke lights lit the air for me

Your love saved my life
Your love is keeping me awake tonight

I need You
You keep You keep
My heart beating beating
I need You
You keep You keep
My lungs breathing
Because Your love is better than life
Better than life

You woke my soul within me
You gave me back Your fire to breathe
Your light broke through to rescue me

Your love saved my life

I need You
You keep You keep
My heart beating beating
I need You
You keep You keep
My lungs breathing
Because Your love is better than life
Better than life

You hold the stars in my skies
You put the light in my eyes
Your love keeps me alive
I need You now and You stay
You turned my night into day

I need You
You keep You keep
My heart beating beating
I need You
You keep You keep
My lungs breathing
I need You
You keep You keep
My heart beating beating
I need You
You keep You keep
My lungs breathing
Because Your love is better than life
Better than life

Your love is better than life

Better than life
