

Get To Know You

Remedy Drive

I heard so much of you I wrote a book
Thick with thoughts of you that I heard were true
The critics read my work and they reviewed
He wrote of things he'd heard but never really knew

I'd say it's time that I get to know you
More than just what I've been told
I'd say it's time that I get to know you
I want to know from my soul

I was so close but I was still without
How could I be so right and still be so wrong
You're like a tune I've only heard about
Let me hear that song - hear it loud and strong
