

Make It Bright

Remedy Drive

Lights out the waves are breaking
Right now my trust is shaken
I try to hold on tight
But there's not much hope in sight

You came through
Lights turned on inside of me
The things You do
Right the wrongs inside of me
On my side every time
Be the fire igniting me
Light a spark in the dark
And make it bright in me

When darkness is upon us
I'm standing on a promise
When I don't see anything
I wait for the rescue that You bring
That You bring

You came through
Lights turned on inside of me
The things You do
Right the wrongs inside of me
On my side every time
Be the fire igniting me
Light a spark in the dark
And make it bright in me

I'm waiting on Your light
When I can barely see
I'm waiting on Your light
To make it bright in me

You came through
Lights turned on inside of me
The things You do
Right the wrongs inside of me
On my side every time
Be the fire igniting me
Light a spark in the dark
And make it bright in me
