

The Sunshine Above the Weather

Remedy Drive

Outside the thunder crashes
And the storms are gaining fast
Though it's raining in my heart
I know that you are

The sunshine above the weather
Always and forever
Your love will remain
My rock and mighty fortress
I'm walking in your promise
Your love will remain

When everything is broken
And the darkness closes in
You are never far from me
Deep inside I see

bridge:
I fade out
I run away
But through it all you stay
The sunshine - it's breaking through when I need you
Your love will remain
