

Bat your eyes a thousand times  
I've dreamed of touching your face  
I never thought it could be this good  
Ill never forget you  
Not in a million years  
Something about how good you look underwater  
Like the dream I've had  
Since you looked the other way  
But now you can only look up can't you?  
My angel  
You look so scared  
A few more bubbles  
A little more effort  
And you'll be home  
Its only water I promise  
Its only water that's a promise  
So you think they'll miss you  
Say how they once touched your hair  
Besides to brush the mud out  
How beautiful you are  
At least till they find you  
You'll always remember my wavy face  
And ill always remember that lovely shade of blue you wore that  
night  
That tag on your toe says " I love you "  
I loved you  
Something about how good you look  
Under the water
