

Belong

Remy Zero

Summer quickly faded
And all the stars
Had turned to stone
Out in the woods we waited
Cause anywhere with you
I knew I was home

You were all I wanted to see there
And that's the way it was
When we belong together
And we thought we were crazy
But we were so strong together
And this world you gave me
I thought we'd go on forever
Isn't that strange?

All these things
I thought would never change
Put you right by my side
Cut through the fields
Up to the park
Meet at the car on the south side
To sleep by the fountain
When it got dark

You were all I wanted to see there
And that's the way it was
When we belong together
And we thought we were crazy
But we were so strong together
And this world you gave me
I thought we'd go on forever
Isn't that strange?

Took me away from you
I changed
You didn't want me to
I prayed for change
And now you're gone
Remember how it was
When we belonged together
And I thought we were crazy
But we were so strong together
And this world you gave me
I thought we'd go on forever
I know we always belonged together
Isn't that stranger
All these things
I hoped would never change
We had it all
We had it all

Summer quickly faded
And all the stars
Had turned to stone
We had it all
Out in the woods we waited

Cause anywhere with you
I knew I was home
