Tonight
we can no longer fight
we can never return to it
once we begin to see
through the eyes up over heaven
would you ever return to me in the end?

i'm not afraid of you at all
if you turned away they will all fall

tonight
we can no longer try
all the time that i cried
i want you again

no one's heard this no voice resounds no one's around i can't believe it what i have no one its over now

i'm not afraid of you at all
i'm not afraid tonight
all your stars glowing bright
i know i'll reach that light again
again
ooh again
again
