

Lost In Love

Renaissance

One more day
I feel you near me
Breathe on me
In the morning
You're by my side

One more word
I hear yo whisper
In the night
When you touch me
I come alive

And all the stars shining down
Speak to me when you're crying
Don't be afraid
I will take you home
Lost in a love machine
Lovers we've always been
Lost in love

One more night
There burns a fire
In my heart
When you kiss me
I fantasize
