

Christ Has Set Me Free

Rend Collective Experiment

You open horizons in my life
Of limitless and cloudless hope
You defy the gravity in me
And give wings to my flightlessness

Oh, Christ has set me free
From negativity, from impossibility
Oh, Christ has set me free
All hope has been released
Oh, Christ has set me free

You have taught my future how to shine
All the colours of eternity
You've given my soul the space to breathe
And discover what it is to simply be

Oh, Christ has set me free
From negativity, from impossibility
Oh, Christ has set me free
All hope has been released
Oh, Christ has set me free

I am free indeed
