

## Create In Me

## Rend Collective Experiment

Create in me a clean, clean heart  
Create in me a work of art  
Create in me a miracle  
Something real and something beautiful  
[x3]

Create a miracle in me

You're not finished with me yet  
You're not finished with me yet  
By Your power I can change, I can change  
'Cause You're not finished with me yet

Make all things new

You're not finished with me yet  
You're not finished with me yet  
By Your power I can change, I can change  
'Cause You're not finished with me yet

Create in me a clean, clean heart  
Create in me a work of art  
Create in me a miracle  
Something real and something beautiful

Create a miracle in me

You're not finished with me yet  
You're not finished with me yet  
By Your power I can change, I can change  
'Cause You're not finished with me yet
