

God is near

Rend Collective Experiment

No one really knows
What it is to be alone
Since You've never left our side

Omnipresence means
That You're never far away
You're always within reach
Always within reach

Hallelujah God is near
Hallelujah Christ is close
Hallelujah God is near
Hallelujah

We've been oceans apart
But You'd part oceans to be with me
Nothing can keep You away
Nothing can keep You away

You're living in me now
You built Your home inside my soul
And You're never moving out
No You're never moving out

You're closer than a whisper
Close enough to hear my heart beat
You're closer than a kiss
Close enough to raise my heart beat
