

## Movements

### Rend Collective Experiment

I wanna soar with You  
Upon wings like eagles  
But I'll crawl with You too  
When the dark and lonely questions come

I wanna stand true  
No matter what's new or comes through  
I can't stand still  
Whatever hits I'll keep making movements to You

I'm running fast and free to You  
'Cos You are the movement and fight in me  
I'm running fast and free to You  
'Cos You are my home where I wanna be  
Come move in me  
Where I wanna be, come move in me

I wanna float with you  
The currents driving me  
But I'll paddle hard too  
When the waves and rapids overcome

I wanna stand firm  
When my mind's weak and my emotions squirm  
I must stand true  
Whatever hits I'll keep making movements to You

I won't walk away, won't walk away
