

Save My Soul

Renegade Five

I know it all
As I'm walking down your roads
I feel your soul
Surrounding me
I am here to keep your heart alive
We can make each other warm
Gonna find a way to reach you now

You're in my dreams
It makes you real
I can hear your breath
So far away from me
I won't lose my faith
Cause I'm on my way
And tonight is the night
I need you here to save my soul

I lied to you
Said I'll always be around
Inside myself
I was somewhere else
But the only thing I wanted
The only thing I needed
Was to hold you til the end of time

You're in my dreams
It makes you real
I can hear your breath
So far away from me
I won't lose my faith
Cause I'm on my way
And tonight is the night
I need you here to save my soul

If you could feel my heart
Drowning in my love
You should see that it all
Tears me apart
All I wanna do is run
Faster than the light
And never leave you behind again

You're in my dreams
It makes you real
I can hear your breath
So far away from me
I won't lose my faith
Cause I'm on my way
And tonight is the night
I need you here to save my soul

You're in my dreams
It makes you real
I can hear your breath
So far away from me
I won't lose my faith
Cause I'm on my way

And tonight is the night
I need you here to save my soul
