Shadows

Renegade Five

I believe that you Are falling from the surface (I know that it's true) You can see the sun Shining on the others (That's all you can do)

Nothing you did Nothing you said Never meant a thing at all All you can do Is run for your life From the fire that brings you down

Trying to find a way Living in the shadows (I know that it's true) Feel it comes for you Surrounded by a shadow (It just doesn't go through)

Take my hand I'll lead You all through the darkness (That's all I can do) You will dream away Never understand it (It's like I can't get it through)

Nothing you did Nothing you said Never meant a thing at all All you can do Is run for your life From the fire that brings you down

Trying to find a way Living in the shadows (I know that it's true) Feel it comes for you Surrounded by a shadow (It just doesn't go through)

Maybe one day you'll see The way to find all you ever need Then I'll come to you To rescue you You will survive in the shadows In the shadows... (In the shadows...)

I'll find a way in the dark Never thought I'll fall Back to the start The shadows are fading away Cause I'm gonna make it, make it, Make it through Trying to find a way Living in the shadows (I know that it's true) Feel it comes for you Surrounded by a shadow (It just doesn't go through)

Trying to find a way Living in the shadows (I know that it's true) Feel it comes for you Surrounded by a shadow (It just doesn't go through)
