

When we say goodbye

Renegade Five

This moment, forever
Will find a place deep in my mind
The silence, Embrace me
And got me standing on my knees
This is goodbye, words that I told you
Will put a scare deep in my heart
I'm so sorry that you're gone

When we say goodbye
Don't wanna hold you down no more
Cause when we say goodbye
And I tell you it's over, I tell you it's over
When we say goodbye
It just takes one word and you're gone
When we say goodbye
And I tell you it's over
When we say goodbye

I hurt you, to many
Times I can't recall
The sunrise, without me
You'll be better of alone
This is my faith, To live on the road
And feel a pain deep in my heart
Where ever it takes me I'll be there

When we say goodbye
Don't wanna hold you down no more
Cause when we say goodbye
And I tell you it's over, I tell you it's over
When we say goodbye
It just takes one word and you're gone
When we say goodbye
And I tell you it's over
When we say goodbye

If I could bring you the treasure, you call our love.
If there is someone, that could show me, so please help me through.
'Cause I am lost

When we say goodbye
Don't wanna hold you down no more
Cause when we say goodbye
And I tell you it's over, I tell you it's over
When we say goodbye
It just takes one word and you're gone
When we say goodbye
And I tell you it's over
When we say goodbye
