

# Flash Tan Queen

REO Speedwagon

Diamond studded man  
Ruby coated plan  
Makes my heart ache to think that money could take you from me  
Midnight dream  
Almost made me scream  
Nightmares came now that money took you from me

Well, you're a flash tan queen from the southern shores  
Like a rotten peach layin' in the georgia sun  
Well, you can lay all day, get your back real brown  
But a dollar can take away your frown

Fat rat queen  
Golden limousines  
All of these things just come between you and me, yeah

Lacy white gown  
Just makes me wanna frown  
My heart aches now that money's taken you from me

Well, you're a flash tan queen from the southern shores  
Like a rotten peach layin' in the georgia sun  
Well, you can lay all day, get your back real brown  
But a dollar can take away your frown

(solo)

Shakes me apart  
Make believe hall  
I'm feelin' like a flower stuck on somebody's wall

Midnight dream  
Lord it made me scream  
My heart aches now that money took you from me

Well, you're a flash tan queen from the southern shores  
Like a rotten peach layin' in the georgia sun  
Well, you can lay all day, get your back real brown  
But a dollar can take away your frown

Oh, you're a flash tan queen
