(I Believe) Our Time Is Gonna Come

REO Speedwagon

You touched me. You took me away. You left me confused when you said you couldn't stay. But now I know what you were trying to say. I can understand that I'm not the only one. But I believe our time is gonna come.

I dream of you through every night, But you're not risin' with me, so I don't wanna see the light. Even if you can't come over, and I hoping that you might 'Cause when you're not here nothing's any fun. But I believe our time is gonna come.

I believe our time is gonna come I believe our time is gonna come I believe our time is gonna I believe our time is gonna come
