

One Lonely Night

REO Speedwagon

You and your baby had some words today
Till not another word was left to say
I see that grin boy
Maybe you think you'll win boy
Until the sun goes down and once again boy

One lonely night
One lonely night
That's all it takes to completely break you

They say it's darkest right before the dawn
But, oh, those darkest hours can be so long
You're feeling strong boy
Tellin yourself she's wrong boy
But how much longer can this night go on boy

One lonely night
One lonely night
That's all it takes to completely break you

One lonely night
One lonely night
That's all it takes to completely break you

Oooh, she's such a good find
Have you gone and lost your mind
You should know she's one of a kind

Oooh, she's such a good find
Have you gone and lost your mind
You should know she's one of a kind

Just one lonely night
One lonely night
That's all it takes to completely break you
