

Then I Met You

REO Speedwagon

I thought I had all I could ask for
Only a fool would think there was more
I would never have believed
That anything could feel brand new
Then I met you

I'd been around the world, and then some
Anything I wanted I could get some
But I had not been anywhere
I could not share the things I knew
Then I met you

Ooh then I met you

I never thought I would ever say
That I need you the way I do
But then I never felt what I'm feeling today
I just never knew, then I met you

I've heard my songs over the radio
They follow me wherever I go
I would listen to my own words
And wonder why they'd never ring quite true
Then I met you...and I knew
