

Isoprene Bath

Reptar

Blindly
Words are slow as many moves away
There's no way you would know it
People rarely show it
But here it means every single dayt

Like a babbling brook
Magic is a lighter shade of blue

Daaab it, Staab it,
Reach out and grab it.
There really nothing else that you could do.

No matter what your daddy is,
Life goes on and on again
The statue brings our tears in him
Broken hearts and medicine

Rabbits eat and rabbits screw
Hair grows long all over you
Find a habit ringing true
Now repeat the thing you do.

Activate, move it in,
Covered in rohphlyn
Happily, negative
Natural handkerchief
Come on in, walk it out
Activate, move it in
Captivate, leg it in
Tingling, walk it out

Why me?
Animals are so awesome

Sun it makes y'all more me
Flashback to your fluid
Sail away the front part of your brain
When you can't move on
Over to
Friendship in a mountain
Living off luggage
Swimming in a lighter shade of blue

Chorus
