

Let Love

Res

And when the sun runs out
No doubts left standing
We'll see if Jah wills that we're alone again
Let love slip through our fingers I say

Live up, live up, live up
I wanna get up
Instead I give up
Sometimes life dictates what we hate

[Chorus:]
And when the sun runs out
No doubts left standing
(who knows if it'll go our way)
And when the sun runs out
No doubts left standing
(Isha Allah it'll be okay)

And when the sun runs out
No doubts left standing
Would it be different if we knew we would win
Let love slip through our fingers I say
Live up, live up, live up
Sometimes
Even the season's change
All patterns rearrange

[Chorus]

You must be an angel
'Cause things made sense
Before you came
Now I'm left without my shell
And still life goes on
Though it's rough now

Maybe I'm an angel too
Let you know your heart is true
You know the line I am your cue

[Chorus]
