

## Let Love

Res

And when the sun runs out  
No doubts left standing  
We'll see if Jah wills that we're alone again  
Let love slip through our fingers I say

Live up, live up, live up  
I wanna get up  
Instead I give up  
Sometimes life dictates what we hate

[Chorus:]  
And when the sun runs out  
No doubts left standing  
(who knows if it'll go our way)  
And when the sun runs out  
No doubts left standing  
(Isha Allah it'll be okay)

And when the sun runs out  
No doubts left standing  
Would it be different if we knew we would win  
Let love slip through our fingers I say  
Live up, live up, live up  
Sometimes  
Even the season's change  
All patterns rearrange

[Chorus]

You must be an angel  
'Cause things made sense  
Before you came  
Now I'm left without my shell  
And still life goes on  
Though it's rough now

Maybe I'm an angel too  
Let you know your heart is true  
You know the line I am your cue

[Chorus]
