Fade

Rev Theory

I just wanna let you know, I'm feeling numb
And I never wanted to believe
Everytime the rain comes down, I feel the way
I wish you don't push the clouds away

I don't wanted, I just needed
Ever let you know

I can't let you drown, I don't wanna watch you fade
I'll take it back if I could find away
I keep into yourself, there's nothing left to say
I'll take it back if I could find away

I'm starting a nature picture now as the night comes down
Every single where you set was real
I'm open at you waiting how to see your face
Trying to connect the way I feel

I don't wanted (I don't wanted), I just needed (I just needed)
Ever let you know

I can't let you drown, I don't wanna watch you fade
I'll take it back if I could find away
I keep into yourself, there's nothing left to say
I'll take it back if I could find away
If I could find away

I don't wanted
I just needed
I don't wanted (wanted), wanted (wanted (wanted))
Ever let you know

I can't let you drown, I don't wanna watch you fade
I'll take it back if I could find away
I keep into yourself, there's nothing left to say
I'll take it back if I could find away
If I could find away
If I could find away
