

## In Sickness 'Till Death Do Us Part - Disgraced

ReVamp

My eyes stay shut  
My mouth won't speak anymore  
Feel, that's all that I do  
Hear, all I have left  
I pray, if it helps, in my silence; end my pain please

Crawl into my skin  
See into my hell (live without a life)

My heart won't love anymore  
It beats the time away  
Stop, that's all that I ask  
Free my tortured body  
Slip gracefully into my death, my salvation

Crawl into my skin  
See into my hell (live without a life)  
My heart won't give in  
Machines keep me here (crawl into my pain)  
A shade of myself  
A human disgrace  
Please let me go

Tubes  
The sound of machines  
They talk about me  
More pain, needles sting  
I slide away  
A white light's piercing my skull,  
The nurses wipe my drawl  
A day passes by  
A perfect one to die
