

## Spin

Revis

I can see your inner motive  
When you wear it on your face  
Indesposed to the world  
You won't let yourself be saved

Your the hand that spins my revolver around  
When you push me away  
(2x)

On the waves of an ocean  
I'm a space God in the rain  
In the arms of devotion  
Where you never found your place

You need no one to spin your revolver  
So go and get my gun  
(2x)

I can see shes falling faster  
Running to her own disaster

You push me away

I can see shes falling faster  
Running to her own disaster

You push me away
