

Spin

Revis

I can see your inner motive
When you wear it on your face
Indesposed to the world
You won't let yourself be saved

Your the hand that spins my revolver around
When you push me away
(2x)

On the waves of an ocean
I'm a space God in the rain
In the arms of devotion
Where you never found your place

You need no one to spin your revolver
So go and get my gun
(2x)

I can see shes falling faster
Running to her own disaster

You push me away

I can see shes falling faster
Running to her own disaster

You push me away
