

All Worked Out

Revive

I don't have all the answers,
I've no idea how it fits together,
We've been lost for too long,
Stuck where we don't belong,
Lonely, through and through,
It's time we cried to you.

I don't have all the answers,
I don't know...don't know what it's all about,
No idea how it fits together,
I don't have...I don't have it all worked out, no.

Caught in the middle, starting to doubt,
Whoever said that they had it all worked out?
We've been hurt for so long,
Stuck where we don't belong,
Lonely, through and through,
It's time we cried to you.

I don't have all the answers,
I don't know...don't know what it's all about,
No idea how it fits together,
I don't have...I don't have it all worked out,
I can't see into the future,
I don't know...don't know what it's all about,
I'm riding on this crazy adventure,
I don't have it all worked out.

But it's alright and I'm okay,
Yeah, you've got life,
And I'm...
And I'm...
And I'm...
And I'm okay.

I don't have all the answers.

I don't have all the answers,
I don't know...don't know what it's all about,
No idea how it fits together,
I don't have...I don't have it all worked out,
I can't see into the future,
I don't know...don't know what it's all about,
Riding on this crazy adventure,
I don't have it all worked out.
