

# Can't Change Yesterday

Revive

Where to from here?  
I'm not sure  
In this crooked game of choose your own adventure  
It's not so clear when things are troubling  
And the wider path seems so inviting

But the truth is  
Where else can we go?

[Chorus]  
I can't change yesterday  
It's gone away  
And tomorrow's still a mystery that I can't see  
I can't change it  
Nothing left for me to say  
I can't change it  
I can't change yesterday

Too quick to give up  
Too quick to give in  
When the hurting starts to really set in

But the truth is  
Where else can we go?

[Chorus]  
I can't change yesterday  
It's gone away  
And tomorrow's still a mystery that I can't see  
I can't change it  
Nothing left for me to say  
I can't change it  
I can't change yesterday

But the truth is  
Where else can we go?  
Yeah all we know  
All we wanna know

[Chorus]  
I can't change yesterday  
It's gone away  
And tomorrow's still a mystery that I can't see  
I can't change it  
Nothing left for me to say  
I can't change it  
I can't change yesterday
