

Love Rule Today

Revive

I walked past a man in need today
Told myself I didn't have the time
It's always easier to look away
And justify excuses in my mind

Let love rule today
Let it be more than something I just say
Let it be too real
And more than what I feel
Let love rule today

We've all done it time and time again
Our words are nothing like the life we're living
Maybe we're just too quick to forget
The love that we have is one that we've been given

Let love rule today
Let it more than something I just say
Let it be too real
And more than what I feel
Let love rule today

When I get to the final day
And all else is burned away
All I have is this
Oh, all you've done for least of these
How I love my enemies
I don't wanna miss

Let love rule today
Let it more than something I just say
Let love rule today
Let it more than something I just say
Let it be too real
And more than what I feel
Let love rule today
