

Power

Revive

There ain't no mind big enough to know Your glory
Nor words enough to sing Your praise
We can only dream of times to come when
You bring an end to all these days
We'll be welcomed in
And all we do is cry

Power, Glory, Honor to You our King, we sing
Power, Glory, Honor to You our King

I will fight with all my might to
Overcome this fallen world
But I will rest in Your salvation
Until the day when You return
We'll be welcomed in
With all the saints around the throne
We'll be brought down on our knees
And all we do is cry

We give You glory, we give You honor, for endless days

Power, Glory, Honor to You our King, we sing
Power, Glory, Honor to You our King
