

Sit With Me

Revive

I know I've seen this before
You fill your life with so much more
Than you were made for
And as your days become so busy
You find your heart's become uneasy
As you try to please Me

But leave your worries and fears behind
Let your heart be still with Mine
'Cause I would rather you be with Me
Forget it all and just come sit with Me
I would rather you be with Me
Forget it all and just come sit with Me

Troubled hearts breed troubled minds
And you're running far behind
But you'll say you're fine
In your life you feel the pressure
To take control and make things better
But you just can't get there

But leave your worries and fears behind
Let your heart be still in Mine
Come to Me with your burdens and your cares
'Cause you need to know I'm there
As you draw near
