

Wonder Why

Revive

Getting up slow out of bed
Your head's in a foggy mist
Same old bus same old job
There must be more to this

Don't you ever wonder why
When you see your life pass by
Oh, can't you feel the time fly
Don't you ever wonder why

Can't believe it's over now
Your dreams have come and gone
Nothing stops the hands of time
Don't know where you belong
Why we're even here at all

Does it ever cross your mind
If you took the time to seek
You would find
A reason to live
