

You Know

Revive

I have so many dreams for my life
I'm going this way and that
Spending so much time worrying
About how it's all turning out

But you know where I've been
And you know where I'm going
Cause you see all my plans for what they are
I lay them all down

You keep the sparrow flying in the sky
Why do I question you?
The flowers of the field are wonderful
I'm a child in the palm of his father

I will worship
I will bow down
To you always
