

# Beloved Horrificer

## Revocation

Bring forth the end and awaken the beast  
For years it has waited to be unleashed  
The hour is nigh, summon it at once  
Mankind's existence will soon to be undone

Nuclear winter is on its way  
There's no escape  
No one can be saved

Witness the destroyer  
Beloved horrificer  
The harbinger of our demise  
Abomination we adore it  
Beautiful and so abhorrent  
The end has finally arrived

The fallout from the blast  
Has blackened out the sun  
The ocean's become a blood bath  
Cities destroyed in the blink of an eye  
The masses are reduced to ash

Nuclear winter is on its way  
There's no escape  
No one can be saved

Extinguished  
Existence  
Distorted  
Deliverance  
Destined for decimation  
Embrace obliteration
