

No Funeral

Revocation

Celebrate the intrepid carnivore
Silent sanguine assassin
Cornering the meeker, soon to be made prey
Silver flash of the dagger
Hail to misery enthroned
Extol the deceptive, destructive and cold
Strangled and suffocated
By subconscious enslavement

Ripping right into you
Racing through to infinity
Disassemble the absolute
Integrate with vacuity

Instigate a senseless transgression
Insurrect and implode
Surrender unto thankless destiny,
Bloated cadaver floats
Weighted with cement affixed
Never changing direction
No reparation for the penniless
Futile insurrection

Ripping right into you
Racing through to infinity
Disassemble the absolute
Integrate with vacuity

All that I see
Is naught but a dream
I no longer know what is real
Disintegrate and desecrate
Give me no funeral
