

# Scorched Earth Policy

## Revocation

Weaponized to neutralize  
Always on patrol  
Under constant surveillance  
Their need for control  
Automaton gaining sentience  
A glitch in the system  
Raining down hellfire on innocent civilians

Now we're all just dots on a screen  
Just blips on a radar  
The human race is obsolete  
Total extermination

Cold and calculated  
Prowler of the skies  
Ceaseless in its devotion  
The ever watchful eye

All organic life forms will perish in their wake  
There will be no survivors on our judgement day

All the failsafes have failed  
Welcome to the new regime  
The only law of the land  
A scorched earth policy
