

Generation Rock

Revolverheld

Turn the volume knob up on the attack
Today is revolverheld in the house, which is your lucky day
Jump to beat, baby, get moving 'your ass glory
We want everyone in this room join in, yes
A decade after Guns' n 'Roses, we are at the start
We play because rock 'n' roll has adopted us
Because we are, what we hear and that is a good thing
We are the Rock Gören, listen to us well

3,2,1

Chorus:

We are the generation of rock
We are the generation of rock
Are you with us have your buck
We want Rock, Rock, Rock

2nd Verse:

I hear they say that everything was better sooner
We are the "I can do nothing" Ltd.
They know everything better and have reasons for everything
At the weekend celebrating going for them is already ne sin
We are each Butts, who says nothing here
And myself every morning howling in the office sits
What is it for a life that you lead
Without emotions, not what you touched

We are the generation of rock
We are the generation of rock
Are you with us have your buck
We want Rock, Rock, Rock
