

# Adios Amigo

Rex Goudie

Woke up, you were on my mind\*  
Thoughts of you that were left behind  
All the things we left unsaid stuck inside my head

I don't care that you put me down,  
Ate me up and spit me out  
I don't wanna secret then just saying goodbye my friend

Don't think of me when I'm not there  
Save it all for someone else who cares,  
I don't care

I would have stayed with you until the end, bye my  
friend  
Gotta say it's been so nice to know you  
I could have followed you until the end, bye my friend  
So long, until we meet again

Memories of what I feel  
Collect these scars and some won't heal  
Woke up and disappeared, took my sorrow and my fears

Don't think of me when I'm not there  
Save it all for someone else who cares,  
I don't care

I would have stayed with you until the end, bye my  
friend  
Gotta say it's been so nice to know you  
I could have followed you until the end, bye my friend  
So long, until we meet again  
Goodbye my friend, goodbye my friend  
Goodbye my friend

Adios amigo, sayonara man  
Don't know when we'll meet again

I would have stayed with you until the end, goodbye my  
friend  
Gotta say it's been so nice to know you  
I could have followed you until the end, goodbye my  
friend  
So long, until we meet again  
Goodbye my friend, goodbye my friend  
Goodbye my friend, goodbye my friend
