Comin' Back For Good

Rex Goudie

Something has been missing, I've been trying to figure
out*
Why you're on the list of things I have to do without
You may think that I'm selfish, I know I've done you
wrong
You've gotta understand me, I've known it all along

I've let you down
Cause' I'll never be around
You gotta hear me out
It's all about you now

Cause' if you ask me lately, I'll have to tell the
truth
You might drive me crazy, but I've gotta be with you
You gotta trust me baby, got one thing left to prove
I know it's hard but just know it's understood
I'm coming back for good

I know we've had our problems, gotta put them in the
past
I can give you everything, just give me one more chance

Won't let you down
Cause' I'll always be around
You gotta hear me out
It' s all about you now

Cause' if you ask me lately, I'll have to tell the
truth
You might drive me crazy, but I've gotta be with you
You gotta trust me baby, got one thing left to prove
I know it's hard but just know it's understood
I'm coming back for good

I know we've had our share of doubts
But one thing that is true, baby,
You're the one who kept me coming around

Cause' if you ask me lately, I'll have to tell the
truth
You might drive me crazy, but I've gotta be with you
You gotta trust me baby, got one thing left to prove
I know it's hard but just know it's understood
I'm coming back for good
