

# Quarantine

Rex Goudie

Well I'm digging through my history, the bad times\*  
It's crystal clear that you were there for every single  
one  
Picking up the pieces in my spare time  
It's crystal clear that I'm the dick that's fooling  
everyone

Wish you could see me now  
Wish you could see me now

Cause' I've been quarantined  
Nice and clean, beneath the rubble  
Oh, I've been quarantined

As a child I settled on the wrong side of everything  
I learned about life and love  
Every time I felt a push from your side  
You'd call upon your friends and start a fight

I'm so much better now  
Wish you could see me now

Because' I've been quarantined  
Nice and clean, beneath the rubble  
Oh, I've been quarantined  
They scrubbed me clean of all this trouble  
Oh, I've been, yes, I've been

I wish that you could see me now  
I wish your friends could hear me now  
I wish that you could see me now  
I wish,

Because' I've been quarantined  
Nice and clean, beneath the rubble  
Oh, I've been quarantined  
They scrubbed me clean of all this trouble

Oh, I've been quarantined  
Nice and clean, beneath the rubble

Quarantine  
Quarantine  
Nice and clean  
Quarantine  
Quarantine
