Run

Rex Goudie

We're just two people Riding in circle That's spinning around Just everyday people Searching for something We've Already Found And I'm just a quy Who's in love with a girl Not in front of me Now you're so far away And I need you right here in my arms Baby just run Take a bus, Take a Plane Take a train Baby just run Run as fast as you can Girl you'll find your way back 'Cause no matter wherever you are There's no place on this earth thats to far, Run We're just two people Wishing that we were together tonight Just everyday people Trying to make sense of this puzzle called life And I'm just a guy Who's in love with a girl Not in front of me Now you're so far away And I need you right here in my arms So baby just run Take a bus, Take a plane Take a train Baby just run Run as fast as you can Girl you'll find your way back 'Cause no matter wherever you are There's no place on this earth thats to far, Run Sooner or later it's over Passing you by and it's gone There's Not enough time left to wonder If your where you belong Take a bus, Take a plane, Take a train So Baby just Run Take a bus, Take A plane, Take a train Baby Just Run Run as fast as you can Girl you'll find your way back 'Cause no matter wherever you are

There's no place on this earth thats to far, $\ensuremath{\mathsf{Run}}$
